

HALCON

A TEKNION COMPANY

Project: Client interested in reducing energy required to operate (2) 50 HP dust collectors

Projected Savings: Client's energy provider calculated savings would be \$1,000 a month

Solution: iVEC™ Steward System operating and controlling (27) GATES and (2) iVEC™ IPS Systems

Results:

- Client realized savings of \$2000 a month, 100% greater than energy company estimate
- Noise reduction resulted in employee satisfaction

"After installation one of my operators came up to me and asked if the dust collector was still on because it was so quiet."

"The power company calculated that we'd save \$1000 per month; my utility bill shows we're saving \$2000 a month."
